

HPMI WELL-BEING PORTAL

Engagement...At Your Fingertips

HPMI helps organizations implement a flexible, data-driven program that keeps employees engaged. We offer a state-of-the-art technology platform that provides real-time information and resources to keep members engaged throughout the program year. Members can access and utilize tools that are specific to their needs and have an integrated single-point of access to streamline all your company wellness initiatives. By providing a site that is user friendly, fun, and inviting, employees stay on track and take advantage of resources and activities that can assist them in achieving their health goals.

The member health portal and associated Mobile App serve as the hub for members to manage their program participation and any incentives tied to their program. They'll use the site to:

- Take the Personal Health Assessment
- Schedule their on-site screening or other wellness events
- Receive individualized actionable feedback and obtain information to manage specific risk factors/conditions
- Sign up for and participate in fun individual and team-based challenges/campaigns that address the whole person
- Log and track activity and nutrition information
- Access Wellness Workshops, Webinars and set a personal Wellness Mission Statement
- Access their personal dashboard that houses all their biometric, lab and activity results

Results You Can Point To

Every successful health management program keeps score. To help measure results, you will have access to over 100 reports. This comprehensive reporting gives you measurable data on how the program is impacting your organization year after year. Reports include: Post-assessment report including biometric and Personal Health Assessment results; participation and incentive reports; and, comparative (pre-post) reporting. Additional drill-down reports and customized reporting is available. All reports are HIPAA compliant.

Incentives That Drive Behavior Change

As experts in Behavior Change we assist in the design and administration of incentive solutions that create high levels of participation and assist with long-term behavior change. Whether you are just beginning your wellness initiative and desire a participation-based incentive model or you are ready for a progress/outcomes-based model, our technology solution can accommodate your needs while keeping administrative requirements at a minimum.

HPMI Integrated Technology Solution

- Individual Member Dashboard
- Challenges & Campaigns
- Wellness Workshops
- Communication and Messaging
- Physical Activity, Diet & Nutrition Resources
- Mobile App & Activity Devices
- Incentive & Rewards Tracker

"HPMI has helped us structure and implement a health and wellness program to accommodate our unique challenges. Our wellness committee members are not health and wellness professionals, so HPMI's knowledge of the field and how to get things done has really helped us achieve greater success with our program. They've guided us in forming a strategic plan and given us direction to make sure everything stays on course. We have a good working relationship and they keep a detailed history which is crucial to measuring progress."

-Human Resources Director
